

## NOTICE: ANNOUNCEMENT OF AVAILABILITY OF DRAFT PERMIT

PERMIT NO.: ST 6216

APPLICANT: City of Shelton  
525 West Cota  
Shelton, WA 98584

FACILITY: City of Shelton Reclamation Plant  
10891 State Route 101  
Shelton, WA 98584

The city of Shelton has applied for a Reclaimed Water permit in accordance with the provisions of Chapter 90.46 and 90.48 Revised Code of Washington (RCW) and Chapter 173-216 Washington Administrative Code (WAC).

The city of Shelton presently owns or operates a Membrane Bioreactor (MBR), Class A Reclaimed Water wastewater treatment plant which is designed to handle an average/maximum daily flow of 0.4 million gallons per day. The wastewater, following treatment, must meet the requirements of the Washington State Water Pollution Control Act, the Reclaimed Water Use Act, and applicable regulations for a permit to be issued.

Following evaluation of the application and other available information, a draft permit has been developed which would allow the use of treated municipal reclaimed water from the Shelton Reclamation Plant to recharge groundwater.

A tentative determination has been made on the effluent limitations and special permit conditions that will prevent and control pollution. A final determination will not be made until all timely comments received in response to this notice have been evaluated.

### PUBLIC COMMENT AND INFORMATION

The draft permit and fact sheet may be viewed at the Department of Ecology (Department) website: [http://www.ecy.wa.gov/programs/wq/permits/southwest\\_permits.html](http://www.ecy.wa.gov/programs/wq/permits/southwest_permits.html).
